studies the remarkable life of othon de grandson crusader diplomat and close companion to king edward i there were once two little boys they met when they were both quite young one was born in what s now switzerland by lake de neuchâtel his name othon de grandson and the other was born in london his name prince edward son of king henry the third of that name othon was probably born in 1238 and edward we know in june 1239 these two little boys grew up and had adventures together they took the cross together the ninth crusade in 1271 and 1272 othon reputedly sucking poison from edward when the latter was attacked by an assassin in 1277 and 1278 they fought the first welsh war against the house of gwynedd othon doing much to negotiate the treaty of aberconwy in 1278 which ended hostilities when war broke out again in 1282 they fought the second welsh war together othon led edward s army across the bridge of boats from anglesey and was the first to sight the future sites of castles at caernarfon and harlech edward made his friend the first justiciar viceroy of north wales when edward and othon went to gascony in 1287 othon stayed in zaragoza as a hostage for edward s good intentions between gascony and castille later in 1291 when acre was threatened by the mamluks edward sent othon as head of the english delegation of knights when acre finally fell to the mamluks bringing the crusades to a close who was the last knight onto the boats othon de grandson helping his old friend the wounded jean de grailly onto the boat when othon returned from the east he found england at war with

scotland and france he would spend his last years in edward s service building alliances and negotiating peace before retiring to his home in what is now switzerland after the king s death in 1307 grandson lived in the time of marco polo giotto dante robert the bruce and the last templars he was right there at the centre of the action in two crusades war with wales scotland and france the sicilian vespers and suppression of the templars he walked with a succession of kings and popes a knight of great renown this is his story

the edwardian castles of north wales were built by a savoyard master mason but also by many other artisans from savoy what is more extraordinary is that the constables of flint rhuddlan conwy and harlech were also savoyards the justiciar and deputy justiciar at caernarfon were savoyards and the head of the english army leading the relief of the sieges of flint and rhuddlan was a future count of savoy the explanatory story is fundamentally of two men the builder of castles master james of st george and justiciar sir othon de grandson and the relationship of these two men with king edward i but it is also the story of many others a story that begins with the marriage of alianor de provence to edward s father henry iii and the influx of her kinsmen to england such as pierre de savoie it is impossible to understand the development of the castles in north wales without an understanding of the savoyards where they came from and their impact on english and welsh history the defining work of arnold taylor in exploring the savoyard history of welsh castles is now many years past and mostly out of print it is time for the story to be revisited and expanded upon in the light of new evidence
